HARRISBURG REGION

Mr. Glenn Mitzel
Solid Waste Specialist
Commonwealth of PA
Department of Environmental Resources
Bureau of Waste Management
Harrisburg Regional Office
One Ararat Boulevard
Harrisburg, PA 17110

Dear Mr. Mitzel:

This letter serves as an update on the status of corrective measures taken at Ferranti International Defense Systems as a result of findings from an April 11, 1989 inspection.

1. Hazardous Waste Storage Building (25 PA Code 75.265 (q) (10))

A model #22 Safety Storage Containment Building was delivered November 30, 1989. We are still in process of obtaining a building permit from the West Hempfield Township Zoning Committee. Property lines and deeds were reorganized by the company attorneys and we have to appear at the Township Planning Commission meeting on December 20, 1989. After our formal presentation to the Planning Commission, we then have to meet with the Township Commissioners. We hope that this process will not linger much longer than mid January, 1990, but we are not able to predict this for certain. In the meantime, the building has had the fire suppression systems installed and will continue to be prepared for use. We will continue to keep your office posted of the situation.

2. Hazardous Material Training Program (25 PA Code 75.625 (f))

On December 6, 1989, we completed 40 hours of safety training for hazardous materials. The program was presented by a safety specialist from Lancaster Laboratories. Documentation is on file in the safety office. We will continue to train key employees as well as provide refresher training.

Please call if you require additional information.

Very truly yours,

TERRI NICHOLAOU
Manager, Employee Services
